DEPARTMENT OF COMPUTER SCIENCE

RESULT ANALYSIS OF LAST FIVE YEARS

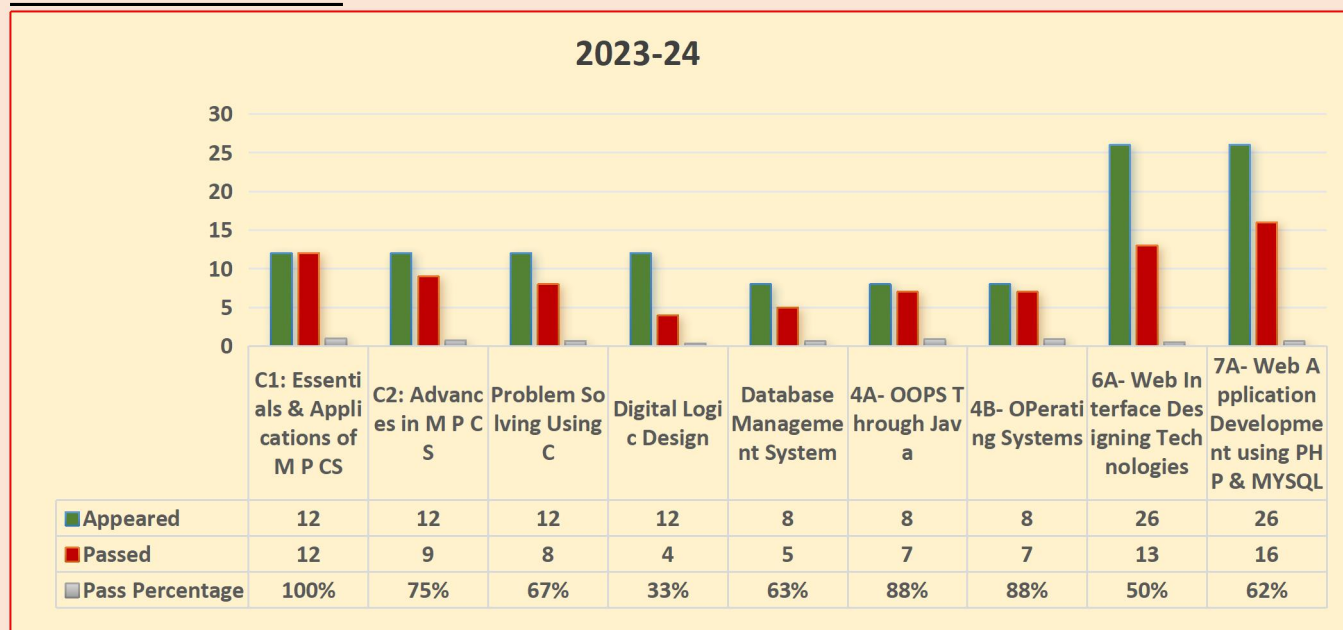

FROM 2020-21 TO 2024-25

2024-25 RESULT:

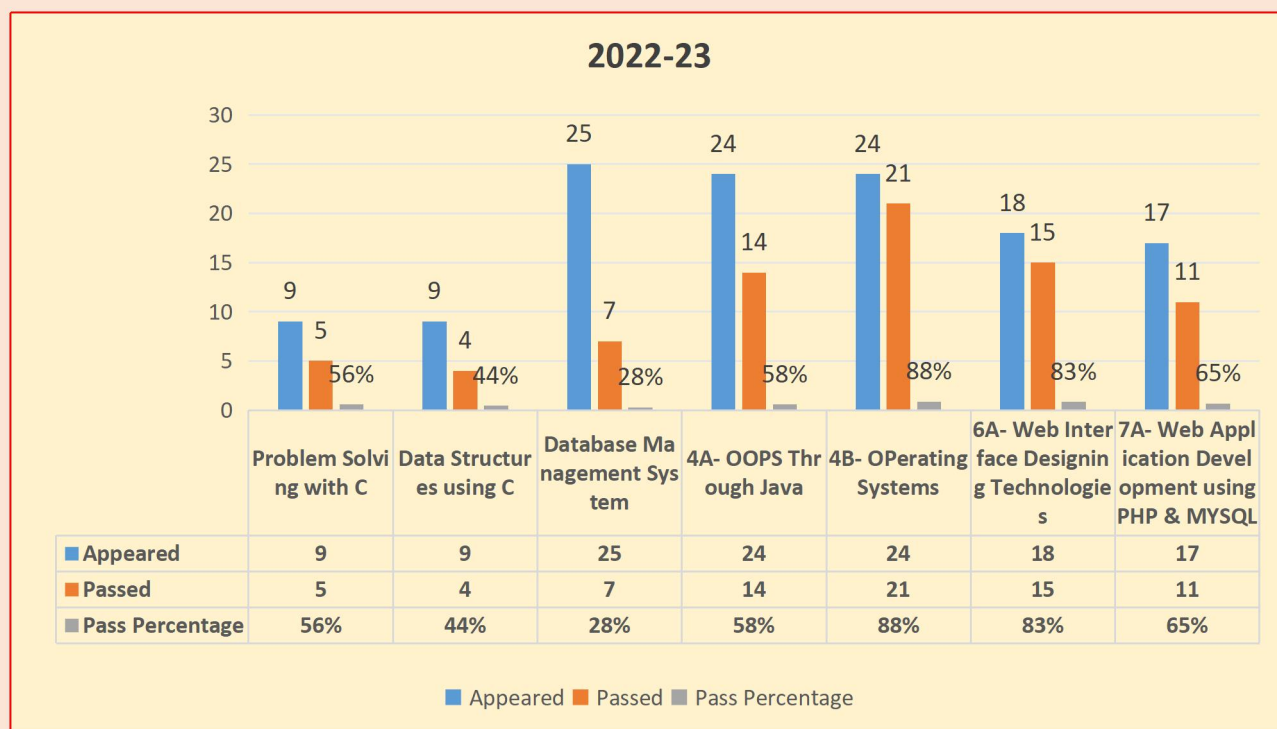

Average Pass Percentage = 87%

2023-24 RESULT:

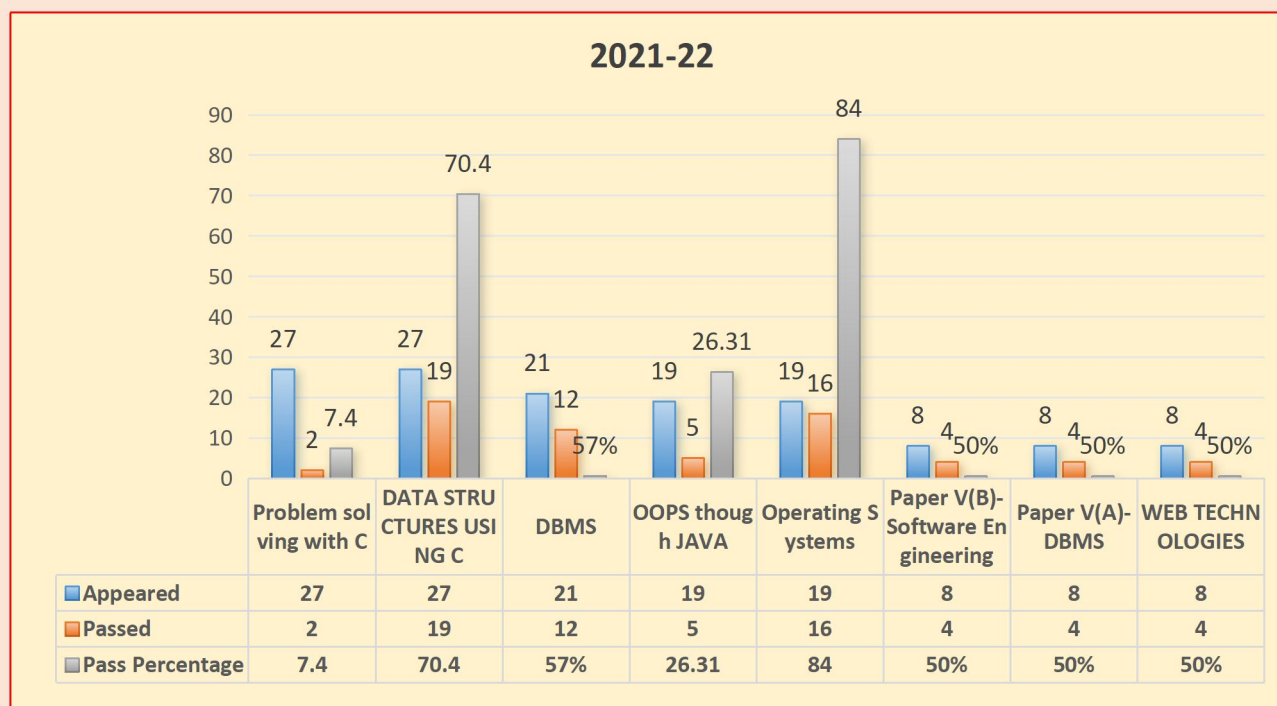

Average Pass Percentage = 70%

2022-23 RESULT:

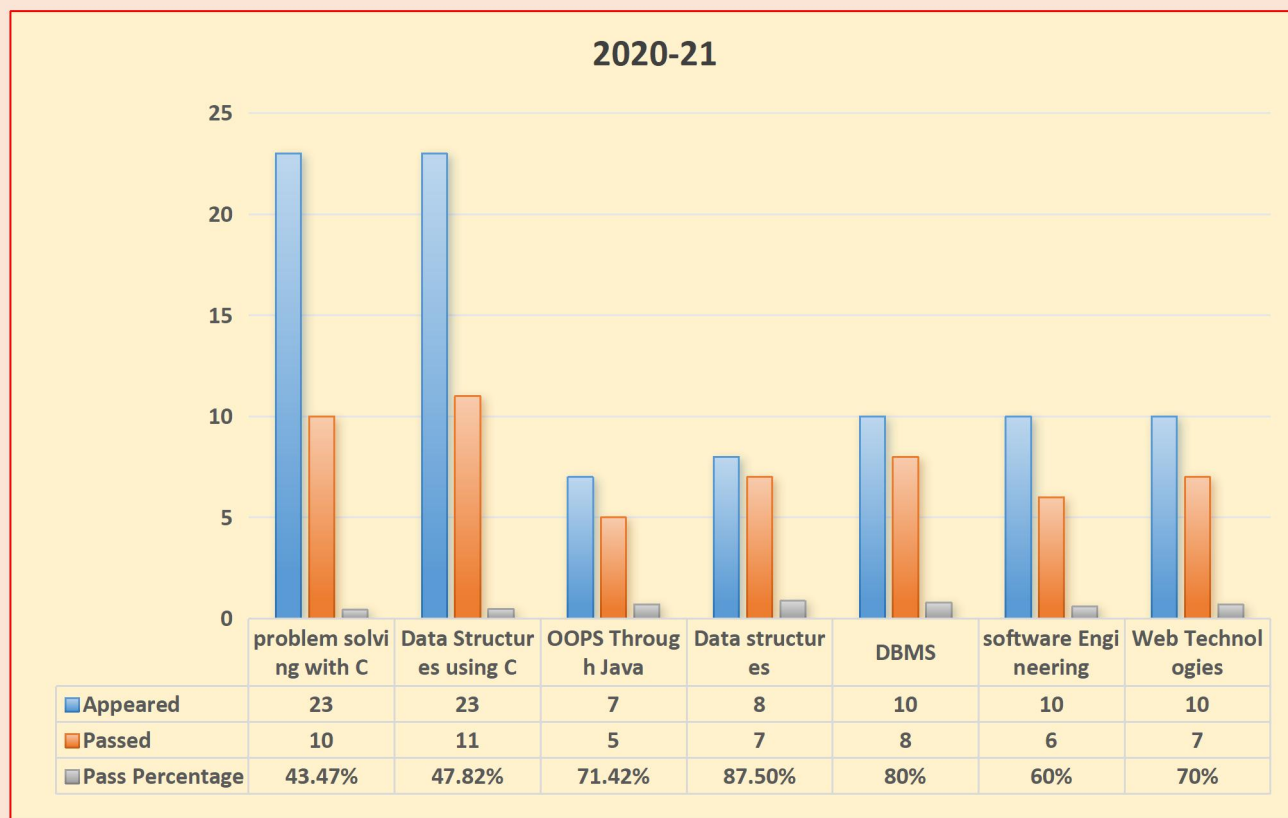

Average Pass Percentage = 60%

2021-22 RESULT:

Average Pass Percentage = 50%

2020-21 RESULT :

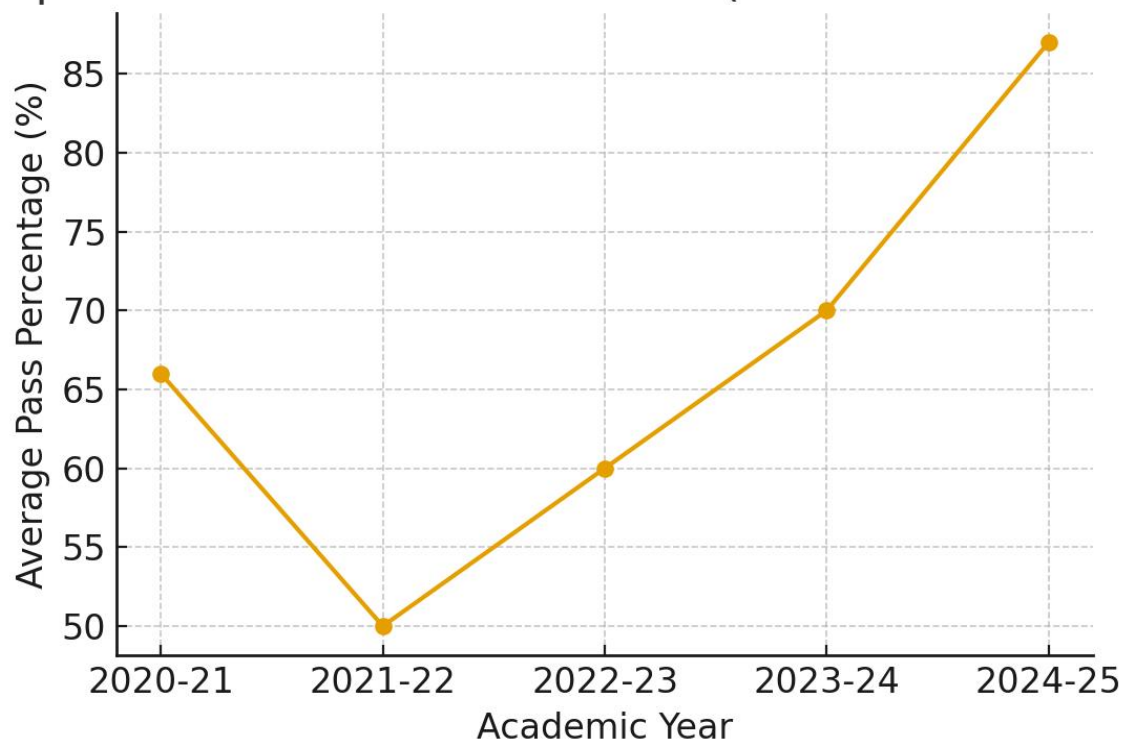

Average Pass Percentage = 66%

Last Five Years : Year-wise Result Analysis

Academic Year	Average Pass Percentage (%)
2020-21	66
2021-22	50
2022-23	60
2023-24	70
2024-25	87

Department Performance Trend (2020-21 to 2024-25)

Summary of Department Performance

The Department of Computer Science has demonstrated steady and progressive improvement in its academic performance over the last five years. The pass percentage has risen from 66% in 2020–21 to an impressive 87% in 2024–25. The overall average success rate during this period stands at 66.6%. This positive trend reflects the department's continued efforts toward academic excellence, effective faculty guidance, and enhanced student engagement. The department aims to sustain this growth trajectory and further strengthen its outcomes in the upcoming academic years.
