REGISTRATIONS OF SWAYAM-NPTEL QUANTUM COMPUTING COURSE AND APSCHE LIVE SESSION

Co-Ordinator:
SMT.B.SOUJANYA

Date & Time : 20.01.2026
Name of the Programme : Registrations of SWAYAM-NPTEL Quantum Computing
Course and APSCHE Live Session
Coordinator : B. Soujanya
Quantum Innovative Center Coordinator
Department Incharge – Computer Science & Computer Applications
Brief Report :

This report summarizes the registration of Computer Science students for the SWAYAM-NPTEL course “Quantum Computing Algorithms and Qiskit” and participation in an APSCHE-organized live online session, which was attended along with the enrolled students on 24.01.2026 at 3:00 PM.

Quantum Computing is a rapidly evolving area of Computer Science with significant applications in research and advanced computing. To promote awareness and skill development in this domain, students from the Computer Science department were encouraged to enroll in the NPTEL SWAYAM Quantum Computing Algorithms and Qiskit course. All Students successfully completed the registration process and showed active interest in the course.

As per the instructions received from APSCHE, all the enrolled students were assembled at the respective college and the live Quantum Computing session was attended collectively. The session was coordinated and attended under the guidance of Smt B SOUJANYA , Quantum Innovative Center Coordinator and Department Incharge along with other faculty members.

During the live session, students were exposed to important concepts related to Quantum Computing, course structure, learning outcomes, and the importance of quantum technologies in future computing. The session provided valuable insights into quantum algorithms and the practical implementation using Qiskit. Students actively participated and benefited from the expert discussion.

The live session was informative and motivating. It enhanced students’ understanding of Quantum Computing and encouraged them to pursue advanced learning and research opportunities in emerging technologies.

Overall, the registration for the SWAYAM-NPTEL Quantum Computing Algorithms and Qiskit course and participation in the APSCHE live online session were successfully completed and proved beneficial for the academic growth of Computer Science students.

**WEBINAR ON BUILDING AI MODELS FOR
DETECTION AND PREDICTION
HOSTED BY ACADEMIC OFFICER, QAC, APSCHE**

**Co-Ordinator:
Smt.B.SOUJANYA**

***Webinar on Building AI Models for Detection and Prediction
Hosted by Academic Officer, QAC, APSCHE***

Resource Person : Prof Valli Kumari , Department of Computer Science , Andhra University .

Date : 31.01.2026 ,

Venue : Seminar Hall

Participants : All First Year Students of our college

College website : <https://www.svrkgdc.ac.in/Departments.php?show=Computer%20Science>

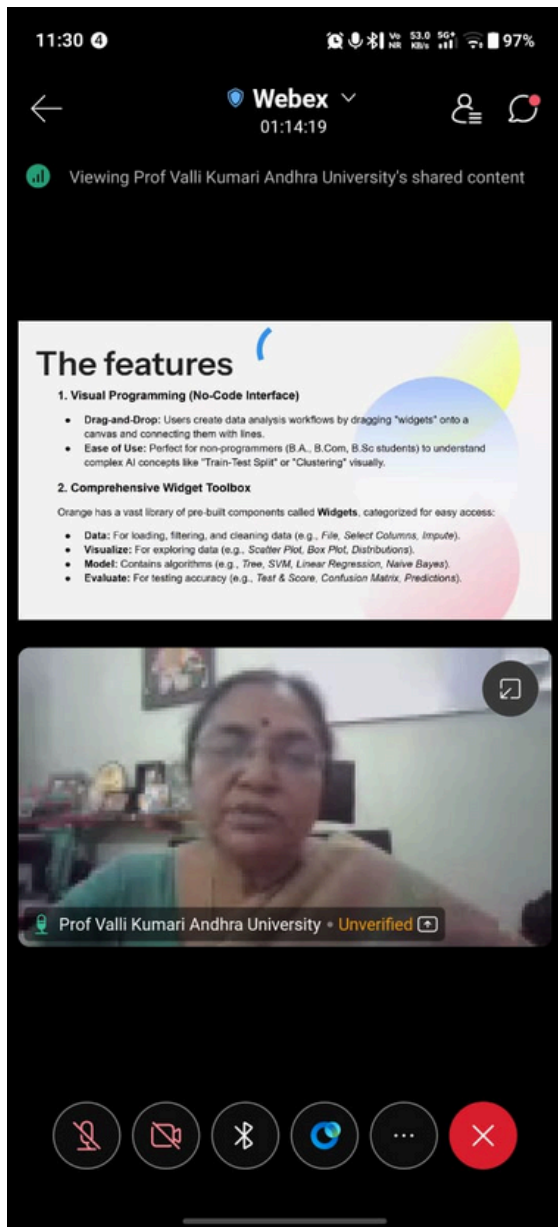

A webinar titled “Building AI Models for Detection and Prediction” was successfully conducted under the guidance of the Academic Officer, Quality Assurance Cell (QAC). The primary objective of the webinar was to introduce participants to the fundamentals of Artificial Intelligence (AI) and its practical applications in detection and prediction across various domains. The session focused on explaining the core concepts of AI and Machine Learning, including data collection, data preprocessing, model training, testing, and evaluation. The resource person highlighted how AI models are designed to detect patterns in large datasets and make accurate predictions, with real-world examples drawn from healthcare, finance, education, and industry. Emphasis was also given to supervised and unsupervised learning techniques, along with an overview of commonly used algorithms.

Participants gained insights into the end-to-end process of building AI models, from problem identification to deployment. The speaker also discussed the importance of ethical AI practices, data quality, and bias reduction to ensure reliable and responsible model outcomes. Interactive explanations and practical illustrations helped participants understand complex concepts with ease.

The webinar witnessed enthusiastic participation from students and faculty members. An interactive question-and-answer session at the end allowed participants to clarify their doubts and explore career opportunities in the field of Artificial Intelligence and Data Science. Overall, the webinar was highly informative and beneficial. It enhanced participants’ understanding of AI-based detection and prediction models and motivated them to explore advanced learning and research in emerging AI technologies. The Quality Assurance Cell’s initiative in organizing this webinar was well appreciated and contributed significantly to academic enrichment.
