STUDENT SEMINAR

CO ORDINATOR: Dr. P.S.S. SRAVANTHI

Date & Time: 1-7-2023

Name of the Program: Student Seminars

Brief Report:

Seminars are capable of keeping the students updated with the technologies. Seminars provide latest information about the things which are happening in science and technology. Students cannot improve their knowledge from textbooks alone. They must be take part in various seminars on latest topics. This would help the students to talk before a crowd later in their life without any difficulty. They will start thinking about new things which they think could be implemented practically. Through conducting seminars they can make others understand what is their idea is all about. Making students take seminars on the subject topics would always help them more to understand the subject. This would give them a chance to collect more information about the seminar topic they are provided with. The result is that they would learn the subject well. They can learn their mistakes and can improve their seminar presentation skills. It is actually a great chance for the students to improve their skills within their curriculum. Taking seminars make them very able to interact with the people which will turn out to be useful in their later life.
