MENTORSHIP AND STUDENT PARTICIPATION IN SWAYAM–NPTEL EXAM

**Co-Ordinator:
Smt.B.SOUJANYA**

Date & Time : 03-03-2026

Name of the Programme : *Mentorship and Student Participation in SWAYAM–NPTEL Exam*

Brief Report :

The Department of Computer Science and Computer Applications has consistently encouraged students and faculty to enhance their knowledge through online certification courses such as SWAYAM–NPTEL. These initiatives aim to strengthen academic understanding and promote exposure to emerging technologies.

As part of this effort, Ms. Eedipalli Suvarna Jyothi was encouraged by the department to enroll and appear for the SWAYAM examination on Quantum Computing held on 03 March 2026. Recognizing the importance of advanced topics like Quantum Computing, the department provided continuous guidance and motivation to the student.

To further support and encourage the student, the Department In-charge, Smt. B. Soujanya, extended financial assistance by paying the examination fee. This gesture reflects the department's commitment towards promoting student participation in value-added certification programs.

Under the mentorship of Smt. B. Soujanya, the student was guided throughout the process, including course registration, preparation, and examination readiness. On the day of the examination, Smt. B. Soujanya personally accompanied the student to the examination centre, ensuring her safe travel, timely reporting, and providing moral support.

This initiative highlights the department's commitment to student development beyond the classroom by fostering confidence, encouraging participation in national-level certification programs, and strengthening the mentor–student relationship.

Outcomes:

- *Improved understanding of Quantum Computing concepts*
- *Increased interest in SWAYAM–NPTEL certification programs*
- *Enhanced confidence of the student through faculty support*
- *Strengthened mentorship and guidance practices within the department*

OFFLINE FACULTY DEVELOPMENT PROGRAMME ON ARTIFICIAL INTELLIGENCE@UOH

**Co-Ordinator:
Smt.B.SOUJANYA**

Date & Time : 30-03-2026

Name of the Programme : OFFLINE Faculty Development Programme on Artificial Intelligence@UOH

Brief Report :

The Department of Computer Science and Computer Applications is proud to acknowledge the successful participation of Smt. Soujanya Bhukya in a prestigious Faculty Development Programme (FDP) on Artificial Intelligence (Discipline Specific Applications in Computer Sciences) conducted from 23rd to 27th March 2026.

The programme was organized by the Executive Education Cell, School of Management Studies, University of Hyderabad, in collaboration with the Andhra Pradesh State Council of Higher Education (APSCHE) and sponsored by Andhra University, Visakhapatnam under the RUSA Grant. This FDP aimed at enhancing the knowledge and skills of faculty members in the rapidly evolving domain of Artificial Intelligence.

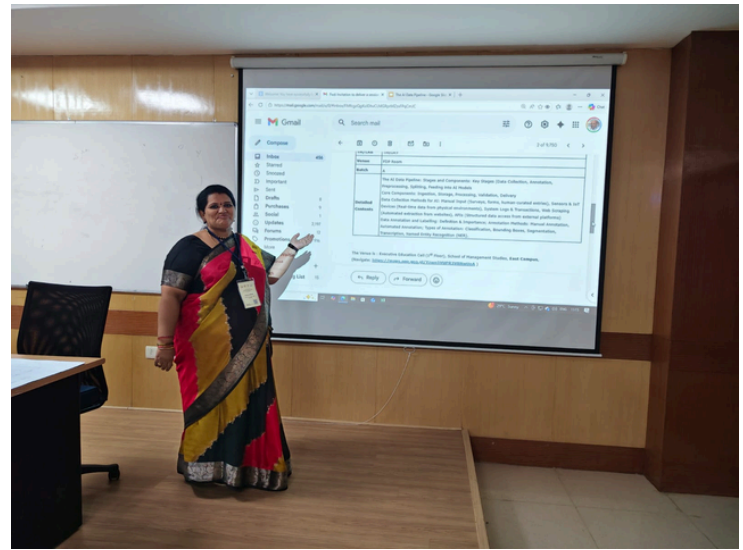

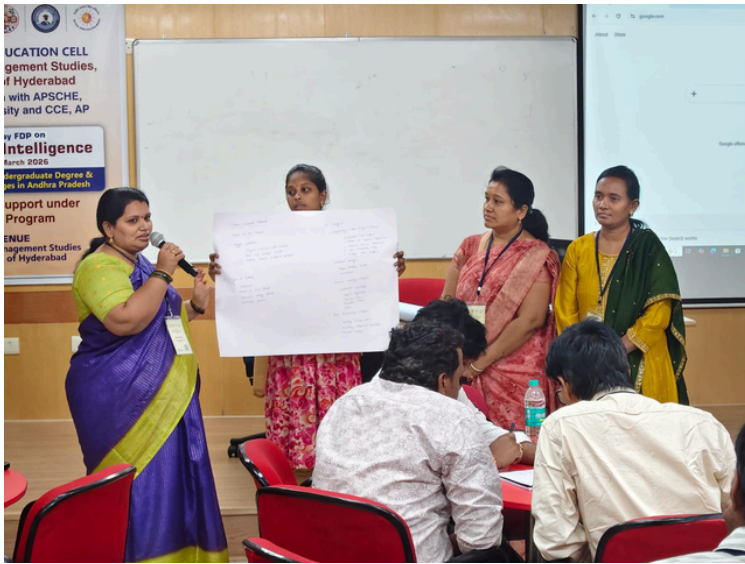

During the five-day programme, Smt. Soujanya Bhukya actively participated in sessions covering advanced concepts, practical applications, and emerging trends in Artificial Intelligence. The training provided valuable insights into integrating AI techniques into teaching methodologies and academic research, thereby improving the overall quality of education delivered to students.

Her successful completion of the programme reflects her commitment to continuous professional development and dedication towards academic excellence. The knowledge gained from this FDP will significantly contribute to strengthening the department's academic standards and promoting innovative teaching practices.

The department appreciates and encourages such initiatives, as they not only enhance individual faculty competencies but also contribute to institutional growth and student learning outcomes.

Outcomes:

- *Enhanced understanding of Artificial Intelligence concepts and applications*
- *Improved teaching methodologies with integration of AI tool*
- *Strengthened research orientation in emerging technologies*
- *Contribution to academic excellence and institutional development*

The method development was performed with different stationary phases and mobile phase compositions. These mobile phase compositions were optimized based on the chromatographic performance of the method. The method was validated for linearity, accuracy, precision, and specificity. The method was used for the quantification of vorasidenib and its process-related impurities in the presence of impurities. The method was used for the quantification of vorasidenib and its process-related impurities in the presence of impurities. The method was used for the quantification of vorasidenib and its process-related impurities in the presence of impurities.</p> <p>Keywords: Vorasidenib, impurities, QAD approach, method validation, process-related impurities.</p>
